Neighborhood Description

The subject is located in Auburn Hills, an established neighborhood of generally conforming homes with similar ages, designs, values, and qualities of construction. This location has shopping, support services, major travel routes, and public schools. No negative influences were noted. Land Use Other is for vacant or undeveloped areas.

Market Conditions (including support for the above conclusions)

Growth rate appears stable while property values are decreasing. Demand is slightly higher than supply in present market conditions. Estimated marketing time is based on comparable sales in the subject's area. Sellers are typically paying 1-3 points with little affect on values. See Market Conditions Form for additional information.

Uniform Residential Appraisal Report

ADDITIONAL INFORMATION

ADVERSE ENVIRONMENTAL CONDITIONS: Unless otherwise stated in the report, the existence of hazardous materials, which may or may not be present on the property, was not observed by the appraiser. The appraiser has no knowledge of the existence of such materials on or in the property. The presence of substances such as mold or mildew, asbestos, urea-formaldehyde foam insulation and other potentially hazardous materials may affect the value of the property. The value estimated is predicted on the assumption that there is no such material on or in the property that would cause a loss in value. No responsibility is assumed for such conditions or for any expertise or engineering knowledge required to discover them. The client is urged to retain an expert in this field if desired.

THE APPRAISER IS NOT A HOME INSPECTOR: This appraisal is not a home inspection and the appraiser is not acting as a home inspector or environmental inspector when preparing this report. The appraiser provides an opinion of value. The appraiser does not guarantee that the property is free of defects or environmental problems. Also, all mechanical systems are assumed to be in proper working order at the time of inspection. No personal property was taken in consideration at all in this analysis. The client has the right to have the home inspected by a professional home inspector. When performing the inspection of this property, the appraiser visually observed areas that were readily accessible. The appraiser is not required to disturb or move anything that obstructs access or visibility. The inspection does not offer warranties nor any guarantees of any kind.

ADDITIONAL CERTIFICATION: The flood data provided is not guaranteed or warranted. A flood certification by FEMA is recommended to determine if the property or improvements are located within a flood zone.

I certify to the best of my knowledge and belief, that the report analysis, options, and conclusions were developed, and this report has been prepared in conformity with the requirements of the Uniform Standards of Professional Practice.

INTENDED USER: The intended user of this appraisal report is the Lender/Client. The intended use is to evaluate the property that is the subject to of this appraisal for a mortgage finance transaction. Subject to the stated scope of work, purpose of this appraisal reporting requirements of this appraisal report form and definition of market value. No additional intended users are identified by the appraiser. No purchaser of the property, borrower, seller or any other party not identified as an intended user should use or rely on this appraisal for any purpose. Such parties are advised to obtain an appraisal from an appraiser of their own choosing if they require an appraisal for their own use. This appraisal report should not serve as the basis for any property purchase decision or any appraisal contingency in a purchase agreement relating to the property.

PERCENTAGE LAND USE: Land Use other is for vacant or undeveloped areas.

PHOTO DISCLOSURE: Comparable photos may have been taken from a previous file done in the past year which explains the weather variances. Multiple Listing Service photo may have been used due to people being in the front yard at the time the appraiser went by the comparable for the photograph.

EXPOSURE TIME: Estimated length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal. The appraiser has developed marketing time estimate as part of this assignment and the exposure time is considered to be similar to the marking time. Exposure time may be greater than marketing time during the winter months due to increasing inventories and less homebuyer activity.

COST APPROACH TO VALUE (not required by Fannie Mae)

Provide adequate information for the lender/client to replicate the below cost figures and calculations.

Support for the opinion of site value (summary of comparable land sales or other methods for estimating site value)

Although the optional Cost Approach is not deemed necessary to form a credible opinion of value, it has been populated to meet a lender requirement. When considering the scope of this assignment and the lack of reliance on this approach the assessor's estimated site value and/or market research is appropriate for this purpose.
The subjects site value was based off of 12708 and 12712 Applewood.

ESTIMATED	☐ REPRODUCTION OR	☒ REPLACEMENT COST NEW	OPINION OF SITE VALUE			=\$	30,000		
Source of cost data Marshall and Swift			Dwelling	2,029	Sq. Ft. @ \$	168.00	 = \$ 340,872

			Total Estimate of Cost-New			=\$	422,984		
			Less	Physical	Functional	External			
			Depreciation	176,257			=\$ (	176,257)	
			Depreciated Cost of Improvements			=\$	246,727		
			"As-is" Value of Site Improvements			=\$	12,000		
Estimated Remaining Economic Life (HUD and VA only) 35 Years			Indicated Value by Cost Approach			=\$	288,727		

INCOME APPROACH TO VALUE (not required by Fannie Mae)

Estimated Monthly Market Rent \$ 0 X Gross Rent Multiplier 0 = \$ 0 Indicated Value by Income Approach

Summary of Income Approach (including support for market rent and GRM)

There is insufficient data to utilize the income approach to value as the subject neighborhood is primarily owner occupied and also due to the lack of rent comparables which sold to determine a gross rent multiplier.

PROJECT INFORMATION FOR PUDs (if applicable)

Is the developer/builder in control of the Homeowners' Association (HOA)? ☐ Yes ☐ No Unit type(s) ☐ Detached ☐ Attached

Provide the following information for PUDs ONLY if the developer/builder is in control of the HOA and the subject property is an attached dwelling unit.

Legal Name of Project N/A

Total number of phases	Total number of units	N/A	Total number of units sold
Total number of units rented	Total number of units for sale	N/A	Data source(s)

Was the project created by the conversion of existing building(s) into a PUD? ☐ Yes ☐ No If Yes, date of conversion

Does the project contain any multi-dwelling units? ☐ Yes ☐ No Data source(s)

Are the units, common elements, and recreation facilities complete? ☐ Yes ☐ No If No, describe the status of completion.

Are the common elements leased to or by the Homeowners' Association? ☐ Yes ☐ No If Yes, describe the rental terms and options.

Fannie Mae Form 1004 March 2005

Uniform Residential Appraisal Report		800145478 800145478 File # 62622
This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project. This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted. SCOPE OF WORK: The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report. INTENDED USE: The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction. INTENDED USER: The intended user of this appraisal report is the lender/client. DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale. *Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment. STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS: The appraiser's certification in this report is subject to the following assumptions and limiting conditions: 1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title. 2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size. 3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination. 4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law. 5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property. 6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.		
Freddie Mac Form 70 March 2005	UAD Version 9/2011	Page 4 of 6 AI Ready
		Fannie Mae Form 1004 March 2005

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
11. I have knowledge and experience in appraising this type of property in this market area.
12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).
22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.
23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.
24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.
25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

Supplemental Addendum [Multi-page]
Clarification of Assumptions, Limiting Conditions, Certifications and Scope of Work
This addendum defines terms used in the appraisal process. It is not a modification of the assumptions, limiting conditions or certifications, but a "clarification" of the appraiser's actions with respect to generally accepted appraisal practice and USPAP.

The explanations discussed here (and in the body of the report), reference by number and page, Scope of Work, Assumptions and Limiting Conditions and Certifications from pages 4-6 of the Fannie Mae Form 1004/Freddie Mac Form 70. The intent is to further define, clarify, and document what the appraiser(s) did and or did not do in order to develop the value opinion, based on the complexity of this assignment and or because of a supplementary Agreement identified within the appraisal report.

Absent a written supplemental Scope of Work from the client (prior to the assignment), by formal engagement letter, the Scope of Work outlined here and within the report, is considered to be representative of what typical users of appraisal services would require and in general, what appraisers would provide as reasonable, acceptable and sufficient for the stated intended user's needs.

HOUSING MARKET TRENDS & CONDITIONS (PG 1) Under "One Unit Housing Trends", the boxes selected are based on an analysis of the neighborhood, as specified in "The Appraisal of Real Estate" (by the Appraisal Institute). For the 1004MC, the analysis reports trends of properties "competitive to the subject". See 1004MC Section.

SCOPE OF WORK (PG 4 & 5, Cert.2): Item (1) - the appraiser(s) conducted a visual inspection of only the readily accessible areas of the property, viewing only those components of the property which were clearly visible from the ground or floor level. No tests were made of the mechanical, plumbing, and electrical systems. Such tests are not within standard guidelines of Fannie Mae and Freddie Mac, but were performed as required by FHA. Comments on the condition of the foundation, roof, exterior, interior, floors, mechanical, plumbing, electrical, insulation and all other matters relating to the construction of the subject property are based on a casual observation only, which may have been limited by the placement of personal property, furnishings, etc., so as to preclude observation of the items blocked by same. There was no observation of the attic, crawl space, or components that are hidden within walls or other areas that would no be visible by a typical visitor to the home with the exception of FHA assignments.

The report may rate the adequacy and or condition of various items (based on observation only) however, it should be clearly understood that these statements are a guide for comparison purposes (as part of the valuation process) and do not represent a detailed analysis of the physical or operational condition of these items. The appraiser(s) is not an expert in these matters and any opinion stated is advisory based only upon observation. This report is not a home inspection. The reader or intended user should not rely on this report to disclose condition defects. Such knowledge goes beyond the scope of this appraisal and as such, comments on observed conditions given in this report should not be taken as a guarantee that a problem does not exist. The following chart will assist the reader in comprehending the scope of a complete visual inspection:

Complete Visual Inspection Includes:	Complete Visual Inspection Does/Did NOT Include:
List the amenities	Testing or activating mechanical systems & Activating appliances
View readily observable exterior areas	Observation of crawl spaces and attics
View readily observable interior areas	Observation of areas not readily accessible
Note quality of materials and workmanship	Building Code compliance issues
Measure the exterior of the improvements	Moving furniture or personal property
Observe the floor plan and room layout	Mold assessment
Assess the functional utility of the property	Removing (or moving) floor coverings
Note the subject's conformity to the market area	The testing or inspection of the well or septic system
Note style/design	Reporting personal property
Observe the general condition of the improvements, including a	Roof condition report beyond an observation from
sampling of closets, windows, electrical switches, and doors	ground level
Photograph exterior and view site around the improvements	Radon assessment

Items (2, 3, 4, & 5): Where it States, "inspect the neighborhood", the observation was limited to driving through a representative number of streets in the area, reviewing maps and other appropriate data, and observing comparables from the street to determine the general factors that may influence the value of the subject property. It also included research to the extent defined in the sections below.

REPAIRS/DETERIORATION (PG 4, Item 5 & Pg 5, Cert. 2): The terms deficiency & livability (as mentioned in the URAR) are subjective. The appraiser(s) made an effort to report ONLY those repair items that, in the appraiser's opinion, affect safety, adequacy, and marketability of the property. Physical deterioration consistent with the age of the home has not been itemized, but considered in the approaches to value.

COST APPROACH (Pg. 5 Cert 4): Is applicable when improvements are new, near new or are of an unusual construction method. This method is appropriate when sufficient land or building sites, etc. are available to a potential purchaser to make construction of improvements similar to the subject, a viable alternative to purchasing the subject. In areas where vacant sites (similar to the subject property in location, zoning, use and utility) are not available to a potential purchaser, use of the cost approach and reliability on the same as a value indicator could be misleading. When the Cost Approach is not required (per USPAP) or deemed necessary to the development of a reliable value opinion, the cost approach is not appropriate, excluded as such exclusion has been so stated with the body of the report.

If the cost approach was used, it represents "replacement cost estimate", and is for "valuation purposes only" and should not be relied upon for insurance purposes. The definition of "market value" on page 4 of this report is not consistent with the definition of "insurable value". If the cost approach was presented, a services such as **Marshall and Swift** (or similar source) was used to develop the estimate. The site value opinion results from extraction, allocation, the developmental method or from a review & analysis of sales of similar sites within the market area.

INCOME APPROACH (Pg. 5 Cert 4): Is applicable when sufficient investor owned properties exist with the subject's immediate area or neighborhood and when investors regularly acquire such properties that are similar to the subject for the express purpose of the income they provide. While rentals may exist in any area, their presence alone is not proof of a viable rental and investor marketplace. As such, in areas dominated by "owner occupied" units, it may be inappropriate to employ the income approach, unless the approach clearly represents the motivations and actions of investors in the marketplace as it relates to the subject property. If the approach was not included, it was the appraiser's opinion that the data was insufficient to provide meaningful conclusion.

EXTENT OF DATA RESEARCH-SALES/LISTINGS (Pg 5, Cert. 5 thru 9): Sales and listings of the subject property and comparables were researched, verified, analyzed & reported in compliance with the Certifications 5 thru 9 of this URAR. Sales data (including listed, closed and pending) of properties that are geographically, physically, functionally and economically similar to the subject property and that reflected current buyer and seller actions were researched and considered. If necessary and applicable, the appraiser(s) also researched comparable land and improved sales, income and expense information and construction costs; confirmed sales information (as noted under "EXTENT OF INFORMATION VERIFICATION", (see next section) and analyzed the information in applying the approach(es) used.

Depending upon the availability and reliability of various data sources, the appraiser(s) used any combination of reasonably available information from city/county records, real estate agents, owner's comments, buyer's description, assessor's records, multiple listing service (MLS) data, KC Data, brochures, listings on websites and visual observation to identify the relevant characteristics of the subject property. Comparables presented reflect the most similar physical, functional, economic and locations characteristics compared to the subject and are relevant to the analysis of the subject property. These sales were adjusted to the subject to reflect the market's reaction (if any) to differences.

TEXT ADDENDUM

File # 62622

Borrower/Client	Lowe, Thomas				
Property Address	7205 E 131st St				
City	Grandview	County	Jackson	State	MO
				Zip Code	64030
Lender	The Loan Store				

EXTENT OF INFORMATION VERIFICATION (Pg. 5, Cert. 10 & 13): Representative samples of disinterested sources for information and data verification include but are not limited to County/City, online records-Recorder, Treasurer, Zoning, GIS, Online Assessor Property Databases-Sales, Property Characteristics, Personal observation-Condition, Location, Physical attributes, Real Estate Transaction Declaration documents-Sale date, Personal property. Flood zone determinations are from flood map services available online at the time of the assignment.

The appraiser(s) verified applicable information with sources "deemed to be reliable" and a disinterested party or corroborated with a third-party source to the extent such verification was possible in the time permitted by the client. In some cases, the motivations of the parties or other factors (terms, arms-length transactions, etc.) may not have been available. In this case, the data was accepted at "face value as factually accurate". The appraiser(s) did not review a survey of the subject site; did not check land records for recorded easements, and has reported only apparent easements and encroachments. Unless otherwise stated within the report, there was no confirmation of the subject being within the appropriate setbacks, as dictated by zoning, building, or other regulations.

PUBLIC/PRIVATE DATA SOURCES (Pg. 5, Cert 12): My (our) appraisal practice is generally limited to the readily available data with the county appraisal offices. I have access to public data via the various counties as well as Heartland Multiple Listing Service, KC Data, flood data and maps along with private information contained within my office files that is considered necessary and appropriate for this assignment.

ADVERSE FACTORS (Pg. 4 item 5 & Pg. 5, Cert 14): As cited in the "Assumptions and Limiting Conditions", is subjective and open to broad interpretation. Most properties will have a form of physical depreciation, deficiency, or livability issues, dependent upon the standards of the party observing the property. A wide-range of factors internal or external to the property may be "adverse" by someone's viewpoint.

Absent specific directives or guidelines from the client, the appraiser(s) made a visual inspection of the property and its market environment (as cited elsewhere in the Scope of Work) and noted factors that may affect the marketability and livability to potential buyers. This was based upon the appraiser's knowledge of the market and or as evidenced by sales of properties with similar or comparable conditions. Such items are noted in the report and the valuation approaches that were applied to the analysis.

DISCLOSURE/DISTRIBUTION (Pg. 6, Cert. 21 & Cert. 23): Regardless of who paid for this assignment, the intended user is only the lender/client stated within the report. This report may be inappropriate for use by parties other than the intended user and could place them at risk. Despite possession of the report, this appraisal should not be relied upon by anyone other than the stated intended user and for the stated/intended purpose.

Certification 23 -Per Fannie Mae- "The Intended User of this appraisal report is the Lender/Client. The Intended Use is to evaluate the property that is the subject of this appraisal for a mortgage finance transaction, subject to the stated Scope of Work, purpose of the appraisal, reporting requirements of this appraisal report form, and Definition of Market Value. No additional Intended Users are identified by the appraiser".

THE VALUE OPINION The value opinion stated in the report is based on my (our) analysis and considers the productivity, economic and physical conditions of the property only as the date of value cited. As market conditions change, this value opinion may not be valid in another time. Personal property that may be included with a sale or transfer of the property were excluded from the value unless such items are necessary for the operations of the property (garage door remotes, etc.) and would normally be a part of the mechanical or operational equipment that is considered realty.

USPAP REQUIRED DISCLOSURES
The appraiser is required by USPAP to identify the Client and any intended users, by name or type. Per USPAP Statement #9, the actual name of the Client may be withheld, but the withholding must be revealed. A Client is defined in USPAP as the party or parties who engage the appraiser for the assignment. The Client may be different from the Lender. If checked below, the following information applies to this report:
[x] The Client by Name is identified on the Lender/Client lines in the Report Form, along with the Lender Name. No instruction was received on the appraisal assignment order or via other written communication at the time of engagement that prevents the naming of the Client. It is understood that the Client is acting as an agent for the Lender for the placement of the appraisal assignment with the appraiser. The Client and the Lender may be the same entity. In that case, only one name will be shown. Both the Client and Lender are Intended Users of this report.
[] The Client is not named in the report, at the instruction of the Client, on the appraisal order or other written communication. The Lender name is shown. However, at the time of engagement, the appraiser understood that the Client was acting as an agent on behalf of the Lender for the placement of the appraisal assignment with the appraiser. The appraisal order with the name of the Client is retained in the appraiser's work file. Both the Client and Lender are Intended Users of this report.

ADDITIONAL CERTIFICATION
The flood data provided is not guaranteed or warranted. A flood certification by FEMA is recommended to determine if the property or improvements are located within a flood zone.
I certify to the best of my knowledge and belief, that the report analysis, options, and conclusions were developed, and this report has been prepared in conformity with the requirements of the Uniform Standards of Professional Practice.

Verifying building permits is not within the normal scope of what is expected of an appraiser. The appraiser does not/can not comment on or guarantee the accuracy or completeness of the public records. The appraiser is not a building permit or compliance expert; further, the appraiser can not guarantee the accuracy of the opinions stated about building permits.

This appraisal report adheres to the development and reporting options of The Uniform Standards of Professional Appraisal Practice (USPAP), FIRREA Title XI Appraisal Regulations and The Appraisal Independence Standards set forth by H.R 4173.

The appraiser or appraisal company may have paid a fee when accepting the appraisal assignment and or when submitting the completed file. These fees are typical for today's market place with appraisal management companies and upload portals.
This appraisal is intended for the sole and exclusive use of the appraiser's client to which this report is addressed. No third party is entitled to, or permitted to, rely on this report, for any reason, irrespective of whether or not said third party might have paid for the report, directly or indirectly.

HIGHEST AND BEST USE SUMMARY, SUPPORT AND RATIONALE:

The Highest and Best Use as defined in the Appraisal of Real Estate, 11th edition, page 297 is as follows: "The reasonably probable and legal use of vacant land or an improved property, which is physically possible, appropriately supported, financially feasible and that results in highest value."

The Highest and Best Use analysis is a 3 step process. The first step involves the highest and best use of a site as though vacant. Determination is made to leave the site vacant or to improve it. If the conclusion is to improve, the second step is to determine the ideal improvement to be constructed. If the property is improved, the third step is the comparison of the ideal improvement versus the existing improvement. Determination whether to maintain the property in its present form, or to modify the improvements to better conform to the ideal improvement, or to demolish the existing improvements. Four criteria for testing Highest and Best Use-Legally Permissible, Physically Possible, Financially Feasible and Maximally Productive.

Legally Permissible: Determination of the subject site as though vacant is legally permissible based on permitted land use or zoning, covenants, conditions and restrictions and/or any development standards of the subdivision where the site is located.

Physically Possible: Determination of the physical characteristics of the subject site as well as surrounding uses that may influence the potential use.

Financially Feasible: Determination if the potential benefits from the construction of the selected use and improvements will outweigh the costs and maintenance of the property.

TEXT ADDENDUM

File # 62622

Borrower/Client	Lowe, Thomas				
Property Address	7205 E 131st St				
City	Grandview	County	Jackson	State	MO
				Zip Code	64030
Lender	The Loan Store				

Maximally Productive: Determination of which use among the 3 previous criteria produces the highest present value.

As part of this appraisal, the subject neighborhood and subject property were evaluated in order to determine the highest and best use of the subject property. Zoning ordinances and deed restrictions (if applicable) were evaluated to determine legal uses. Economically feasible and physically possible uses of the subject property were considered as well. The subject property was evaluated "as if vacant" in order to determine uses that would produce some return and the one use (existing or alternate), that produce the highest net return. Neighborhood development patterns and commercial potential were considered in all unincorporated areas. The highest and best use conclusion noted on this report was consistent with all the above considered factors. The noted highest and best use is considered reasonably probable, legal, possible, appropriately supported, financially feasible, and results in the highest value.

CURRENT ZONING REGULATIONS LIMIT THE USE OF THE SITE. ECONOMIC CONSIDERATIONS SUPPORT IMPROVEMENT OF THE SITE WITH A CONFORMING RESIDENCE TO ACHIEVE THE HIGHEST VALUE. THE SUBJECT SITE IS IMPROVED WITH A CONFORMING RESIDENCE WHICH REPRESENTS A SUBSTANTIAL PORTION OF THE TOTAL PROPERTY VALUE. LAND VALUES HAVE NOT REACHED THE POINT WHERE REDEVELOPMENT IS FEASIBLE . THEREFORE, THE PRESENT LAND USE IS THE HIGHEST AND BEST USE OF THE SITE.

The subject improvement and GLA were measured using ANSI Z765-2021 standards.

The appraiser has no personal bias, or interest with respect to any of the parties involved in the transaction relating to the appraisal, including but not limited to the Seller or the Seller's directors, officers, employees or agent. The appraiser demonstrates sufficient experience and education in the appraisal of properties similar to the subject property.

Additional Comments for Adjustments to Comparables:
Seller concessions or closing costs are only adjusted for what is not typical or are considered excessive for a particular market area.

View adjustments are made based on actual reported lot costs for newer homes or based on matched pair analysis or grouped sales analysis. Floor plan or design adjustments are based on market research or grouped and/or matched pair analysis while considering Marshall and Swift Cost Handbook. Age adjustments were based on physical depreciation while considering matched paired analysis or grouped sales analysis. Condition adjustments were based on categorizing each of the comparables updates to the kitchen, bathrooms, decor and mechanical systems utilizing matched paired analysis or grouped sales analysis. Basement finish adjustments were based on the quality and condition of each comparable and based on a matched paired analysis.

* URAR: Sales Comparison Analysis - Summary of Sales Comparison Approach
There is not significant evidence to warrant a site adjustment for the variances between the comparables and the subject. Comparable #4 is located on a semi-busy road. Condition adjustments were made based on reported data in the MLS, driveby exterior inspections, and discussing condition with the listing agent when necessary. Most of the comparables are believed to have superior updates and required a condition adjustment. Basement finish adjustments were made based on contributory value of the finished areas. Basement finish was adjusted at \$15 per square foot while walkout adjustments were adjusted at \$2,000. Walkout basement adjustments were combined with basement finish contributory value. The comparables provided are believed to be the best available to support the subjects estimate of value. Comparables #1 and #4 required the most adjustments and were given the least emphasis in estimating the subjects market value. Downward time adjustments were needed for the comparables which sold over three months ago based on data from the MC form, Spark data and the most recent MLS quarterly report. The living area or basement finish could be different than reported by other appraisers due to the appraiser for the subject property using the Kansas City Data Service which is data inputed by a licensed/certified appraiser versus estimated by the county appraiser or Realist. Adjustments which exceed recommended guidelines were made due to the lack of more similar sales.

Property History
* SUBJECT 36-MONTH PRIOR TRANSFER HISTORY *

7205 E 131st St
-No transfer history.

* COMPARABLE 12-MONTH PRIOR TRANSFER HISTORY *
(may include properties that were considered but not utilized as comparables)

13621 Applewood Dr
-Transferred on 01/02/2025 for \$262,500. It transferred from Hirschler Sharon C to Cityscape Props LLC and was a Trustee's Deed (Foreclosure) (Document #101E). This is noted as a distressed transfer and distressed transfers are typically not indicative of market value.

13304 Corrington Ave
-Transferred on 07/21/2025. It transferred from Fountain City Renewal LLC to Kingdom Texas LLC and was a Special Warranty Deed (Document #50928E).
-Transferred on 07/16/2025. It transferred from Potts Carl E and Adoracion G to Fountain City Renewal LLC and was a Warranty Deed (Document #49774E).

12733 Richmond Ave
-No transfer history.

13203 Bristol Ave
-Transferred on 04/21/2025. It transferred from Smith Steven L and Vickie L to Walker Flips Kc LLC and was a Warranty Deed (Document #26858E).

12731 Byars Rd
-Transferred on 09/23/2025. It transferred from Mickelwait Joel and Laila H to Wbh Properties 2 LLC and was a Correction Deed (Document #70918E).

7500 E 126th St
-No transfer history.

City Grandview County Jackson State MO Zip Code 64030

Lender The Loan Store

This report was prepared under the following USPAP reporting option:

- ☒ **Appraisal Report** This report was prepared in accordance with USPAP Standards Rule 2-2(a).
- ☐ **Restricted Appraisal Report** This report was prepared in accordance with USPAP Standards Rule 2-2(b).

Reasonable Exposure Time

My opinion of a reasonable exposure time for the subject property at the market value stated in this report is: 0-3 months

Additional Certifications

- I certify that, to the best of my knowledge and belief:
- ☒ I have **NOT** performed services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment.
- ☐ I **HAVE** performed services, as an appraiser or in another capacity, regarding the property that is the subject of this report within the three-year period immediately preceding acceptance of this assignment. Those services are described in the comments below.
- The statements of fact contained in this report are true and correct.
 - The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions.
 - Unless otherwise indicated, I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved.
 - I have no bias with respect to the property that is the subject of this report or the parties involved with this assignment.
 - My engagement in this assignment was not contingent upon developing or reporting predetermined results.
 - My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.
 - My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice that were in effect at the time this report was prepared.
 - Unless otherwise indicated, I have made a personal inspection of the property that is the subject of this report.
 - Unless otherwise indicated, no one provided significant real property appraisal assistance to the person(s) signing this certification (if there are exceptions, the name of each individual providing significant real property appraisal assistance is stated elsewhere in this report).

Additional Comments

2012 USPAP requirement to Develop Exposure Time

The appraiser has developed marketing time estimate as part of this assignment and the exposure time is considered to be the similar to the marketing time.

EXPOSURE TIME: estimated length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.

Prior to accepting an assignment, and if discovered at any time during the assignment, an appraiser must disclose to the client and in the report certification:

The appraiser has not previously appraised the subject property within the last 3 years.

Kristin Bien contributed to the report by researching the sales data for each comparable sale, reporting the comp data to the sales grid, typing the report including the sketch. Ryan Tebbenkamp inspected the subject property and is solely responsible for the subject's value and all the research for the comparables and the adjustments on the sales grid.

Market Conditions Addendum to the Appraisal Report

The purpose of this addendum is to provide the lender/client with a clear and accurate understanding of the market trends and conditions prevalent in the subject neighborhood. This is a required addendum for all appraisal reports with an effective date on or after April 1, 2009.

Property Address7205 E 131st StCityGrandviewStateMOZIP Code64030

BorrowerLowe, Thomas

Instructions: The appraiser must use the information required on this form as the basis for his/her conclusions, and must provide support for those conclusions, regarding housing trends and overall market conditions as reported in the Neighborhood section of the appraisal report form. The appraiser must fill in all the information to the extent it is available and reliable and must provide analysis as indicated below. If any required data is unavailable or is considered unreliable, the appraiser must provide an explanation. It is recognized that not all data sources will be able to provide data for the shaded areas below; if it is available, however, the appraiser must include the data in the analysis. If data sources provide the required information as an average instead of the median, the appraiser should report the available figure and identify it as an average. Sales and listings must be properties that compete with the subject property, determined by applying the criteria that would be used by a prospective buyer of the subject property. The appraiser must explain any anomalies in the data, such as seasonal markets, new construction, foreclosures, etc.

Explain in detail the seller concessions trends for the past 12 months (e.g., seller contributions increased from 3% to 5%, increasing use of buydowns, closing costs, condo fees, options, etc.).

An analysis was performed on 76 competing sales over the past 12 months. For those sales, a total of 42.1% were reported to have seller concessions. This analysis shows a change of -1.2% per month.

Are foreclosure sales (REO sales) a factor in the market?

☐ Yes

☒ No

If yes, explain (including the trends in listings and sales of foreclosed properties).

An analysis was performed on 76 competing sales over the past 12 months. For those sales, a total of 0.0% were reported to be REO.

Cite data sources for above information.

Information reported in the Heartland MLS system (using an effective date of 01/13/2026) was utilized to arrive at the results noted on this addendum. Any percent change results noted in these comments are based on simple regression.

Summarize the above information as support for your conclusions in the Neighborhood section of the appraisal report form. If you used any additional information, such as an analysis of pending sales and/or expired and withdrawn listings, to formulate your conclusions, provide both an explanation and support for your conclusions.

An analysis was performed on 76 competing sales over the past 12 months. The sales within this group had a median sale price of \$289,000. This analysis shows a change of -0.8% per month. Based on all sales in this same group, there is a 1.7 month supply. This analysis shows a change of +12.6% per month. These sales had a median DOM of 10. This analysis shows a change of +1.1% per month.

The subjects zip code reported -12.9% and -4.9% median and average sales price increase according to the most recent MLS quarterly report.

The market appears to be declining at about 9.6% over the past year.

UNIFORM APPRAISAL DATASET (UAD) DEFINITIONS ADDENDUM

(Source: Fannie Mae UAD Appendix D: UAD Field-Specific Standardization Requirements)

Condition Ratings and Definitions

C1

The improvements have been recently constructed and have not been previously occupied. The entire structure and all components are new and the dwelling features no physical depreciation.

Note: Newly constructed improvements that feature recycled or previously used materials and/or components can be considered new dwellings provided that the dwelling is placed on a 100 percent new foundation and the recycled materials and the recycled components have been rehabilitated/remanufactured into like-new condition. Improvements that have not been previously occupied are not considered "new" if they have any significant physical depreciation (that is, newly constructed dwellings that have been vacant for an extended period of time without adequate maintenance or upkeep).

C2

The improvements feature no deferred maintenance, little or no physical depreciation, and require no repairs. Virtually all building components are new or have been recently repaired, refinished, or rehabilitated. All outdated components and finishes have been updated and/or replaced with components that meet current standards. Dwellings in this category either are almost new or have been recently completely renovated and are similar in condition to new construction.

Note: The improvements represent a relatively new property that is well maintained with no deferred maintenance and little or no physical depreciation, or an older property that has been recently completely renovated.

C3

The improvements are well maintained and feature limited physical depreciation due to normal wear and tear. Some components, but not every major building component, may be updated or recently rehabilitated. The structure has been well maintained.

Note: The improvement is in its first-cycle of replacing short-lived building components (appliances, floor coverings, HVAC, etc.) and is being well maintained. Its estimated effective age is less than its actual age. It also may reflect a property in which the majority of short-lived building components have been replaced but not to the level of a complete renovation.

C4

The improvements feature some minor deferred maintenance and physical deterioration due to normal wear and tear. The dwelling has been adequately maintained and requires only minimal repairs to building components/mechanical systems and cosmetic repairs. All major building components have been adequately maintained and are functionally adequate.

Note: The estimated effective age may be close to or equal to its actual age. It reflects a property in which some of the short-lived building components have been replaced, and some short-lived building components are at or near the end of their physical life expectancy; however, they still function adequately. Most minor repairs have been addressed on an ongoing basis resulting in an adequately maintained property.

C5

The improvements feature obvious deferred maintenance and are in need of some significant repairs. Some building components need repairs, rehabilitation, or updating. The functional utility and overall livability is somewhat diminished due to condition, but the dwelling remains useable and functional as a residence.

Note: Some significant repairs are needed to the improvements due to the lack of adequate maintenance. It reflects a property in which many of its short-lived building components are at the end of or have exceeded their physical life expectancy but remain functional.

C6

The improvements have substantial damage or deferred maintenance with deficiencies or defects that are severe enough to affect the safety, soundness, or structural integrity of the improvements. The improvements are in need of substantial repairs and rehabilitation, including many or most major components.

Note: Substantial repairs are needed to the improvements due to the lack of adequate maintenance or property damage. It reflects a property with conditions severe enough to affect the safety, soundness, or structural integrity of the improvements.

Quality Ratings and Definitions

Q1

Dwellings with this quality rating are usually unique structures that are individually designed by an architect for a specified user. Such residences typically are constructed from detailed architectural plans and specifications and feature an exceptionally high level of workmanship and exceptionally high-grade materials throughout the interior and exterior of the structure. The design features exceptionally high-quality exterior refinements and ornamentation, and exceptionally high-quality interior refinements. The workmanship, materials, and finishes throughout the dwelling are of exceptionally high quality.

Q2

Dwellings with this quality rating are often custom designed for construction on an individual property owner's site. However, dwellings in this quality grade are also found in high-quality tract developments featuring residence constructed from individual plans or from highly modified or upgraded plans. The design features detailed, high quality exterior ornamentation, high-quality interior refinements, and detail. The workmanship, materials, and finishes throughout the dwelling are generally of high or very high quality.

Q3

Dwellings with this quality rating are residences of higher quality built from individual or readily available designer plans in above-standard residential tract developments or on an individual property owner's site. The design includes significant exterior ornamentation and interiors that are well finished. The workmanship exceeds acceptable standards and many materials and finishes throughout the dwelling have been upgraded from "stock" standards.

Q4

Dwellings with this quality rating meet or exceed the requirements of applicable building codes. Standard or modified standard building plans are utilized and the design includes adequate fenestration and some exterior ornamentation and interior refinements. Materials, workmanship, finish, and equipment are of stock or builder grade and may feature some upgrades.

Q5

Dwellings with this quality rating feature economy of construction and basic functionality as main considerations. Such dwellings feature a plain design using readily available or basic floor plans featuring minimal fenestration and basic finishes with minimal exterior ornamentation and limited interior detail. These dwellings meet minimum building codes and are constructed with inexpensive, stock materials with limited refinements and upgrades.

Q6

Dwellings with this quality rating are of basic quality and lower cost; some may not be suitable for year-round occupancy. Such dwellings are often built with simple plans or without plans, often utilizing the lowest quality building materials. Such dwellings are often built or expanded by persons who are professionally unskilled or possess only minimal construction skills. Electrical, plumbing, and other mechanical systems and equipment may be minimal or non-existent. Older dwellings may feature one or more substandard or non-conforming additions to the original structure.

Definitions of Not Updated, Updated, and Remodeled

Not Updated

Little or no updating or modernization. This description includes, but is not limited to, new homes.

Residential properties of fifteen years of age or less often reflect an original condition with no updating, if no major components have been replaced or updated. Those over fifteen years of age are also considered not updated if the appliances, fixtures, and finishes are predominantly dated. An area that is 'Not Updated' may still be well maintained and fully functional, and this rating does not necessarily imply deferred maintenance or physical /functional deterioration.

Updated

The area of the home has been modified to meet current market expectations. These modifications are limited in terms of both scope and cost.

An updated area of the home should have an improved look and feel, or functional utility. Changes that constitute updates include refurbishment and/or replacing components to meet existing market expectations. Updates do not include significant alterations to the existing structure .

Remodeled

Significant finish and/or structural changes have been made that increase utility and appeal through complete replacement and/ or expansion.

A remodeled area reflects fundamental changes that include multiple alterations. These alterations may include some or all of the following: replacement of a major component (cabinet(s), bathtub, or bathroom tile), relocation of plumbing/gas fixtures/appliances, significant structural alterations (relocating walls, and/or the addition of) square footage). This would include a complete gutting and rebuild.

Explanation of Bathroom Count

Three-quarter baths are counted as a full bath in all cases. Quarter baths (baths that feature only a toilet) are not included in the bathroom count. The number of full and half baths is reported by separating the two values using a period, where the full bath count is represented to the left of the period and the half bath count is represented to the right of the period.

Example:

3.2 indicates three full baths and two half baths.
